

# BELARC

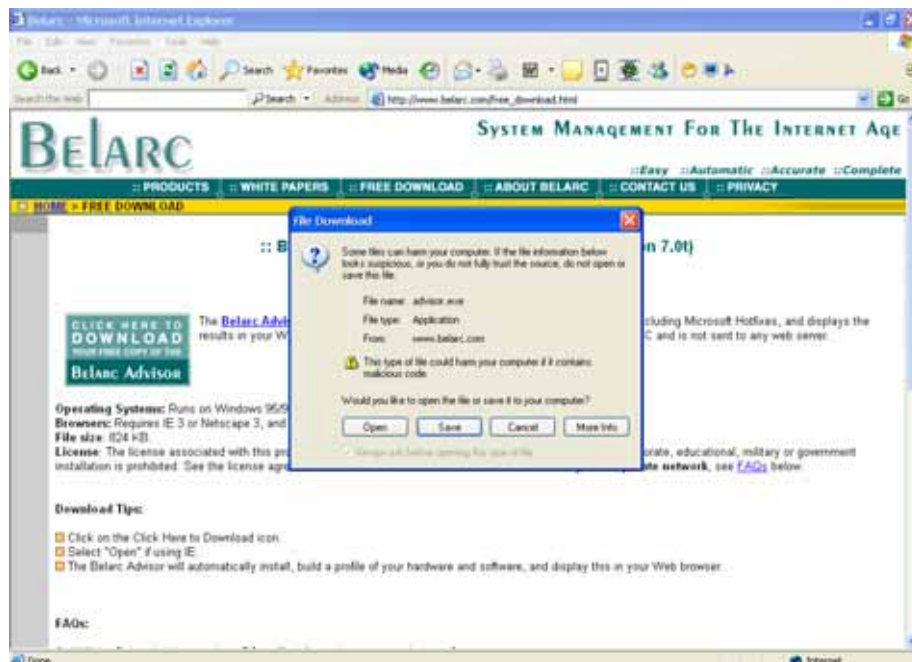

Step 1: Go to website: [www.belarc.com](http://www.belarc.com), click on "Free Download" as indicated with a red circle

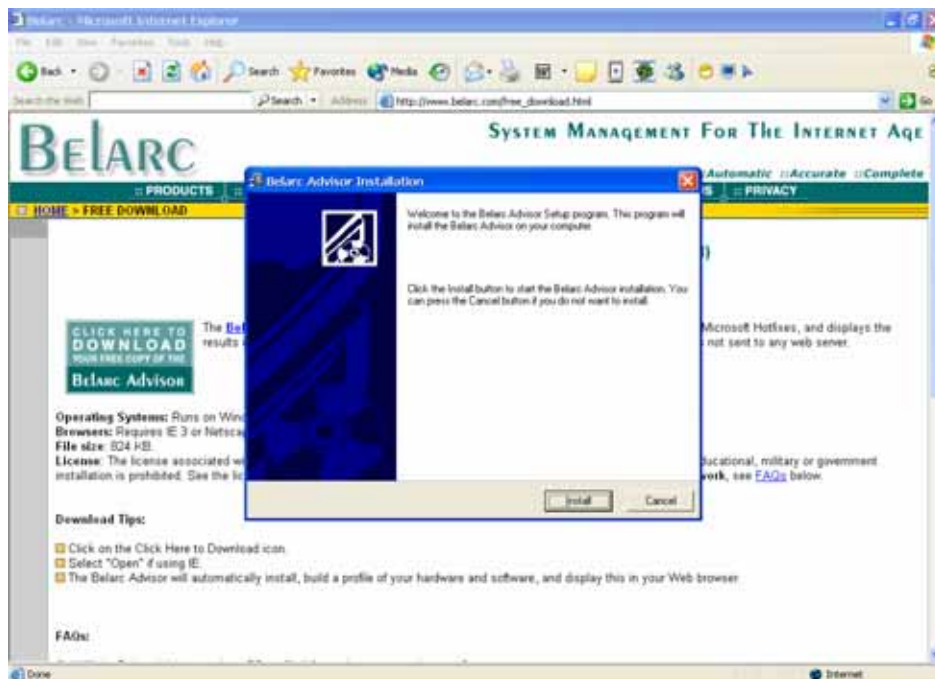

Step 2: Click on the button on the left of the page as indicated with a red circle below.

**Step 3:** File Download window: click on “Open” and Belarc Advisor Installation will start.

**Step 4:** Belarc Advisor Installation: click on “Install”

Step 5: Computer Profile Summary complete. Print out report.

The screenshot shows the Belarc Advisor web interface in a Microsoft Internet Explorer browser window. The page title is "Belarc Advisor Current Profile". The main heading is "BELARC ADVISOR PC Audits in Your Web Browser!". Below this, there is a disclaimer: "The license associated with the Belarc Advisor product allows for **free personal use only**. Use on multiple computers in a corporate, educational, military or government installation is prohibited. See the [click to download](#) for details. The information on this page was created locally on your computer by the Belarc Advisor. Your computer profile was not sent to a web server. [Click here for more info.](#)"

On the left side, there are navigation links: "About Belarc", "System Management Products", "Download Area", and "In page links". The "In page links" section includes "Installed Software", "Software Updates", and "Software Removals".

The main content area features a "System Security Status" section with three indicators: "0.00 of 10 (click...)", a green checkmark with "Up-to-date", and a red X with "Missing Security Updates".

The "Computer Profile Summary" section displays the following information:

- Computer Name: Faye (N W520)
- Profile Date: Tuesday, 16 August, 2005 10:04:26
- Advisor Version: 7.05
- Windows Login: Faye

Below this, there is a link: "Click here for Belarc's System Management products for large and small companies."
